

# COLOR PULSE 2011

## BALANCE

is an attribute that we all strive to live. Sorting the Real from the Surreal defines priorities that drive the direction for 2011, as it gives us a chance to dream of the future. From the rural influences to urban application, BALANCE is supported by 4 themes for **COLOR PULSE 2011**: *The Farm*, *Order*, *Escape*, and *Tribe*. Benjamin Moore's annual COLOR PULSE forecast has won awards and received international recognition. Experience how this essential color and design resource can keep you moving forward with the latest information on color and design trends:

- Color and Design Inspiration and Insight
- An Inside Track to Color Direction
- Color Trends Two Years in Advance

**Join us** for this exclusive **Color and Design Forecast** event. This is the first time this presentation has been brought to the Inland Northwest. Through generous sponsorships we are able to secure this speaker and venue and offer a deep discount to members of our local construction associations.
